TUCK'S POST CARD

CARTE POSTALE. POSTKARTE.

By Appointment.

Laxey Wheel, Isle of Man. Smaller than the Great Wheels at Earl's Court, Paris, and Blackpool, the Laxey Wheel nevertheless attains very respectable dimensions—namely, a circumference of 227 feet, a diameter of 72½ feet, and a breadth of 6 feet. It was constructed in 1854, in order to keep the lead mines dry. Its platform is 75 feet high, and is reached by 95 spiral stairs.
